Thorburn Associates Celebrates 15th Anniversary

Thorburn Associates (TA) celebrates their 15th anniversary this month, providing award winning acoustical and audiovisual designs.

Castro Valley, CA (PRWEB) April 19, 2007 -- Thorburn Associates (TA) celebrates their 15th anniversary this month, providing award winning acoustical and audiovisual designs. From its roots in a small garage office to their new modern offices, Thorburn Associates has expanded literally, coast to coast with branches in California and North Carolina.

"Looking back, the years have been exciting, a little scary in their momentum and yes, quite a learning experience. TA's strengths lie in a balance of traditionalism and inventive insight for creating solutions for our clients," says TA's Steve Thorburn, co-founder and Director of Design and Engineering.

TA has taught over 6,000 hours of instruction in the AEC Industry with the belief that education is the foundation and the future.

"I couldn't be happier with TA's path-- from the start we planned for growth with the ability to adapt to changing trends and technology," says the President of TA, Lisa Thorburn. "TA's longevity and the work we've produced is a testament to the dedication and hard work of the people involved. We currently employ 18 engineers and support staff and are hiring more to better meet client needs."

TA's designs can be found around the world from Lotte World (http://www.lotteworld.com/Global_eng/) in Seoul, Korea to Baylor Univeristy (<http://www.baylor.edu/>) in Waco, TX to SAP Techonology (<http://www.sap.com/usa/index.epx/>) in Palo Alto, CA. Projects range from studios, amusement parks, houses of worship, corporate boardrooms, theaters, universities, offices, medical facilities and casinos.

"It's not often that I write to compliment design work that I paid for, but in this case it is warranted. I commend your professionalism, design expertise and follow through. Congratulations on a job well done," wrote Phil Herback, Director of Facilities at Harvey's Resort Hotel/Casino. (<http://www.harrahs.com/casinos/harveys-lake-tahoe/hotel-casino/property-home.shtml>) in Lake Tahoe, NV.

Thorburn Associates: 15 Years of Designing Quality Environments. Whether you're looking for acoustics, presentation lighting, audiovisual, network and structured cabling design or audio video control system design--TA has solutions for you. <http://www.ta-inc.com/>
