

Control Centers Related Project Experience

Bank of America - Livermore Depot Dispatch Center

Livermore, CA

Bank of America Corporate Real Estate

Wall and ceiling acoustic finishes and construction method recommendations for a new office space and mail room area.

East Bay Municipal Utilities District EOC

Oakland, CA

GSC Raphael Associates

During the improvement impact study, we provided recommendations for acoustical guidelines and audiovisual system requirements. The A/V system needed the capacity to display the Geographical Information System and include an automated documentation system.

Palm Beach County EOC

Palm Beach, FL

Architects Design Group, Inc.

Provided recommendations to improve the acoustical environment within the main emergency operations meeting room. Also suggested designs for decreasing the transfer of noise from mechanical rooms into the lobby area.

Caltrans District IV Headquarters / EOC

Oakland, CA

Interior Architects, Inc.

Audiovisual system design for a new auditorium, video conferencing, and Emergency Operations System in Caltrans' office building.

Metrocomm 911 Dispatch Center

Las Vegas, NV

Kittrell Garlock and Associates

Room acoustics, sound isolation, speech privacy and mechanical noise and vibration control for a large, metropolitan 911 emergency operations center.
