

<b>Federated Department Stores</b> Federated Department Stores	<b>Various Cities, USA</b> Audio/Video System specifications and acceptance testing for thirty-four department stores' multimedia upgrade projects throughout the U.S.
<b>Gallo Winery</b>	<b>Modesto, CA</b> Sound system upgrade recommendations to optimize its performance in the Atrium area.
<b>Villages Golf and Country Club</b> Kenneth Rodriguez & Partners Inc.	<b>San Jose, CA</b> Room acoustics, mechanical noise/vibration control, sound isolation and audiovisual system programming for a 14,400 square foot country club.
<b>Rancho Canada Banquet Room</b> Coast Business Communications	<b>Carmel, CA</b> Acoustical recommendations for selecting an operable partition to divide a country club's banquet room from the kitchen.
<b>Foothills Mall - Funderland</b> Bourn Properties	<b>Tucson, AZ</b> Acoustical recommendations for a 4,000 square foot food court and children's spontaneous free play area in a mall.
<b>Pizza Hut - Play Center</b> White Hutchinson Leisure & Learning Group	Acoustical criteria for a prototype play area in a restaurant.
<b>Great Mall of the Bay Area</b>	<b>Milpitas, CA</b> Detailed review of the mall's audio and paging system. Recommended changes in loudspeaker placement and programming adjustments to enhance intelligibility. Our recommendations are being phased in as funding allows. At the present time, only 1 zone has been modified.
<b>Ming's Villa Restaurant</b> Ming's Villa	<b>Palo Alto, CA</b> Design of a large-screen TV system in a bar/restaurant for Monday Night Football.
<b>CSU Fresno - Bookstore/Student Union</b> David Bartlett Associates	<b>Fresno, CA</b> Developed acoustical details for 42,000 square feet in dining area, bookstore, and student union. Services included sound isolation between the kitchen and cafeteria, audiovisual system upgrade, HVAC system noise control, sound masking system design, and room acoustics for the multi-story building.
<b>The Jewelry Mart</b> Tanner Leddy Maytum Stacy	<b>San Francisco, CA</b> Designed audio/video display system with six monitors for the Diamond & Jewelry Mart lobby.
<b>Kaiser Center</b> Teleport Communications Group	<b>Oakland, CA</b> Developed sound isolation and noise/vibration control methods for reducing noise from an emergency generator located in a shopping complex.
